## TACIT AND PUBLIC ENDORSEMENT

Youth employment is an essential vehicle for young people's development; and it contributes to development in wider spheres through building consensus, tolerance and active citizenship. The Non Formal Training of women and the youth by this young organisation is a step in the right direction.

Our collaboration and commitment to Betterworld's initiative is in line with our National Policy of Respect of Fundamental Human Rights and the Rule of Law. We believe this area of cooperation is a prerequisite for International Solidarity to enhance sustainable development in Cameroon.-

*Dr. Chémua Divine BANDA*
